# 38CC

This is the same boat that when it was introduced, completely dominated bluewater fishing tournaments for more than a decade. Fountain's legendary 38CC tracks true with hooks in the water, cruises efficiently at mid-range speeds and delivers a soft, dry ride when Mother Nature gets nasty. Inside, a large U-shaped bow seating area also provides space for carry-ons under the cushions. Protective coaming panels are a plus while fighting fish and the 38CC can be equipped with key options including a starboard side dive door, a massive live well, and outriggers.
